

NO AGREEMENT HAS BEEN MADE

Situation in the Pennsylvania Anthracite Coal Fields Unchanged.

STATEMENT OF THE MINERS

SO FAR THERE HAS BEEN NO THREAT OF STRIKE.

Philadelphia, Pa., April 10.—Despite many conferences, conditions with regard to wages in the anthracite coal fields of Pennsylvania remain unchanged tonight.

Some of the mine workers entertain the hope that an amicable agreement will yet be reached.

President Lewis made a statement this afternoon, giving a resume of the mine workers' side of the controversy.

"It is said that the operators have granted a concession," states Mr. Lewis. "This I cannot understand, as the operators refuse to agree to restore the wages of those men which had been reduced during the past three years in direct violation of the award of the strike commission."

Union Not Recognized.

"The operators' representatives refused likewise to permit the miners' representatives to sign any proposition on behalf of the United Mine Workers of the anthracite region."

"Great stress has been given to the strike commission's award by the operators in stating that the award did not provide for the signing of any agreement with the United Mine Workers."

"As a matter of fact, the strike commission not only believed that an agreement should be made with the mine workers through their organization, but recommended a form of agreement which is a matter of record."

"It seems that the strike commission's award is to be made the instrument of depriving the anthracite mine workers of every right that wage earners and citizens of this country should enjoy according to the laws of the land."

Mine Owners Organized.

"No one questions the right of the mine owners to organize. No one has denied them the right to fix the selling price of coal. No one has interfered or, as far as we know, even attempted to interfere in their right to sell anthracite coal at such a price as they decide upon from month to month."

"That they have a perfect organization is evident from the fact that they can issue orders at any time to add force or reduce the selling price of coal, and that order is quite uniform in its application. Even now it is reported that they have notified their selling agents not to contract for large tonnage."

"The representatives of the anthracite United Mine Workers were a unit in their position when supporting and defending propositions that were presented and submitted to the operators."

YOUR DISTRESSED STOMACH WILL FEEL FINE FIVE MINUTES LATER

Take your sour stomach—or maybe you call it indigestion, dyspepsia, gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of **Peppin's Diapepsin** and let you eat one 25-grain Triangle, and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, eructations in the pit of stomach, bad taste in mouth, constipation, pain in

UTAH SCHOOLS WILL OBSERVE ARBOR DAY ON NEXT THURSDAY

Governor Issues Proclamation—School Superintendent Suggests Appropriate Programs—Pupils Here to Make Special Efforts Toward Beautifying Home Surroundings—Significance of the Day.

Arbor day is designated by statute in Utah as a legal holiday. This year Arbor day will fall on Thursday, April 15. It will be observed generally throughout the state. Especial attention will be given to this day by the instructors and pupils of the schools. The schools will be closed, but the children will plant trees, shrubbery and flowers. The governor's proclamation with regard to Arbor day reads:

"Whereas, A custom, full of profit, powerful in producing good and helping toward advancing the beauty of our surroundings, has been established, the observance of which has become nationwide; and

"Whereas, In recognition of this usage, the statutes provide that the governor shall issue a proclamation, recommending the observance of Arbor day;

"Now, therefore, I, William Spry, governor of Utah, do recommend that Thursday, April 15, 1909, be celebrated and observed as Arbor day by the people of this state by the planting of trees, shrubs and vines, in the promotion of forest growth and culture; that state, county and municipal officers take advantage of this occasion to adorn the public grounds; that the schools of the state hold appropriate exercises that the children may participate in and be impressed by this splendid custom, and that the citizens generally beautify their private grounds by the planting of trees and shrubs and expend such other efforts as shall be in harmony with the general character of this holiday."

Provisions of Statute.

Two sections of the Utah statutes provide for the observance of Arbor day. These are 1146 and 1837. They read:

"The governor shall each year issue a proclamation, recommending the observance of Arbor day by the planting of trees, shrubs and vines, in the promotion of forest growth and culture, and in the adornment of public and private grounds, places and ways, and in such other efforts and undertakings as shall be in harmony with the general character of such a holiday."

"It shall be the duty of the district board to cause to be set out and properly protected, as many shade trees as the size, location and arrangement of the school lot will justify, and such expense shall be paid from the special school fund. It shall be the duty of the county superintendent to see that this requirement is complied with."

Suggestion for Exercises.

A. C. Nelson, state superintendent of public instruction, has caused to be sent out a suggestive program of exercises for next Thursday to be followed by the state schools. The numbers in this program are:

Singing.
Reading of the governor's proclamation.
Introductory remarks by principal.
Invocation.
Singing.
History of Arbor day.
Recitation.
"The Value of Forests."
Remarks by school trustees.
Brief, concise talk by a teacher on "How to Plant a Tree."
Singing.
Planting of trees and shrubs on school grounds.
These meetings are to begin at 10 o'clock in the forenoon.

D. H. Christensen, superintendent of the city schools, has taken a keen interest in the proper observance of Arbor day. To the end that the best results may be obtained, he has addressed to the principals of the different schools a circular letter of suggestion. This letter is self-explanatory, and is as follows:

"You are reminded of the approach of Arbor day, April 15. The purpose of the day has been well observed in the past, and it is hoped that this year will witness an increased interest."

"In addition to the planting of choice trees and ornamental shrubs, pupils should be encouraged to give attention to flower beds and to gardening. Some flower and vegetable seeds furnished by the department of agriculture of the national government through our senators and representatives, are now ready for distribution among the schools for apportionment among pupils on such basis and in such way as the principal may determine."

"In view of the fact that the national encampment of the G. A. R. will be held here in the early part of August, it is suggested that special effort be put forth to beautify our home surroundings. The schools can do much toward securing the planting of flowers and ornamental shrubs about homes in the greatest possible profusion consistent with good taste. Principals should obtain lists of plants that flower in the early part of August and arrange for such suggestions and instructions to pupils as will aid most satisfactorily in attaining the end sought. A few pretty combinations of the national colors in flower bed designs might be attempted by children."

"It is hoped that principals may be able (chiefly through their manual training departments) to arouse sufficient interest in home adornment to get a nice new coat of paint placed on fences and frame buildings and on the woodwork of dwellings in general. The plan is feasible, and it is worth while, too, isn't it? Let us do our part toward making Salt Lake City not only a city of homes, but a city of beautiful homes. In an army of 10,000 bright boys and girls we have an invincible host."

Children Will Report.

In addition to the observance of Arbor day, the children of the city schools will report to their teachers the work they have done during the Easter vacation week, just ended. The teachers will

CIVIC LEAGUE BULLETIN

The Civic Improvement league, which has been actively working for several years for a cleaner and more beautiful Salt Lake, are outlining plans for their work on Arbor day. The directors will hire extra wagons to move their own lots and back yards to dump all the garbage and rubbish on the street in front of their residences. The city will hire extra wagons to move this garbage as rapidly as possible, but the people must be patient, for it will take some extra time to clean up rubbish that has been accumulating for a whole year. When dumping the garbage on the side of the street the people are requested to put it in boxes, barrels or sacks, so as to make it easier for the men to cart it away.

The Civic Improvement league asks everybody to make a special effort this year, even more than they have done in years past. The G. A. R. is coming to the city this summer, thousands of visitors will be here and the people should show a clean, beautiful city, which can easily be done if plenty of flowers and shrubs are planted and lawns are attended to at once.

The league has no way of enforcing the following recommendations, but appeals to the patriotism and loyalty of the people of Salt Lake to accomplish the ends desired. The improvement league, therefore, offers the following suggestions and asks that they be carried out by every one as fast as possible.

Plant all the trees, lawns, flowers and shrubs that you possibly can.

Spray your trees and keep them neatly trimmed.

If you live where there are paved sidewalks, plant lawns along the paved walks; if you live where the sidewalks are not paved, use your influence with the city council to have them paved as soon as possible, and then plant your lawns.

Keep the dandelions and the weeds from your lawn, as they mar its beauty. Keep the weeds from growing in your lots and on your sidewalks.

Don't throw rubbish or paper on the sidewalks or on the streets.

Clean your back yard as well as your front yard, and ask your friends and neighbors to do likewise.

If there are any vacant lots in your neighborhood, see that they are cleaned.

"77" HUMPHREYS' SEVENTY-SEVEN BREAKS UP GRIP AND COLDS

The sunshine and warmth of approaching Spring, are responsible for many Colds. The temptation is to wear lighter clothing; a sudden change in the weather and "Seventy-seven" is in demand.

Its quick use restores the checked circulation, starts the blood coursing through the veins and breaks up the Cold.

A CLOSE SHAVE.

Many of Them Happening Every Day But Soon Forgotten.

Close shaves would be of more frequent occurrence but for the tender faces of many men, which will not permit of shaving often. Heretofore, nothing has been said in these columns about postlam, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been confined almost exclusively to its remarkable properties as an eczema cure; it stops the itching at once and cures the worst cases in a few days. While the application of postlam after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation, as it does for abrasions, roughness, and various scars, and what it does for all manner of skin difficulties—heals and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will soothe and tone up the skin as no toilet preparation could possibly do.

Postlam can be had for fifty cents at a reliable druggist's, particularly the F. J. Hill Drug Co., who make a specialty of it. Or the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City, will send a trial supply free by mail to anyone who will write for it. This is sufficient to show results in twenty-four hours.

report to the principals, and they, in turn to the superintendent's office. The report will include number of trees planted, number of shrubs set out, number of flower plots laid, number of fences painted, number of trees cleaned and other information along the same lines.

On Capitol Grounds.

There will be exercises on the capitol grounds on Arbor day. The hour has not yet been fixed, but it will likely be 10 o'clock Thursday forenoon. The capitol commission has ordered thirty choice trees which will be set out. The governor will make a little talk, and there will probably be remarks by others. Inasmuch as the governor will not be here, the city from his Seattle trip until tomorrow, the complete details of the program cannot at this time be given.

Mayor J. S. Bradford says that he knows of no exercises on the part of the city. The county will set out the new shrubbery.

Arbor day was conceived and put into being by J. Sterling Morton, at one time secretary of the interior. He succeeded in getting through the legislature of Nebraska a bill for the establishment of Arbor day as a legal holiday in that state. The idea soon spread, until now Arbor day is a legal holiday in every state except Delaware and the Indian Territory. The dates vary in the different states because of the climatic conditions. Thus, in Montana Arbor day comes on May 1, instead of April 15, as in Utah. The change was made by legislative enactment, owing to the fact that trees and plants set out in the state of Montana in some parts of Montana are not likely to be killed by frost. May is uniformly a pleasant and genial month.

HANDSOME EARNINGS FROM Apple Orchards

The Cache Valley Orchard Company's Mammoth Fruit Enterprise vies with the classic garden of Hesperides. Its possibilities are astounding.

"I take pleasure in saying that I have investigated the Cache Valley Orchard Co.'s proposition, and find the same to be a bona fide undertaking. In fact, I believe it to be one of the safest investments now open to the public."

MARTIN CHRISTOPHERSON,
President of the Salt Lake Nursery.

The Cache Valley Orchard Company places upon the market a small block of treasury stock. Its land is on the Bear River, two miles west of Smithfield, and is known to all the world as the grandest soil for winter apples in all the west.

The Company is free of indebtedness, and its stupendous holdings comprise the following: 747 acres of Grandest Land in Cache Valley, with full water rights. It is capitalized at \$140,000—1,400 shares. \$100,000 already subscribed. All land under cultivation. 100 acres in Alfalfa. 70 acres in Beets. 60 acres Potatoes. 15 acres in Onions. 20 acres in Barley. 20 acres in Oats. 350 acres in Winter Apples. 40 acres of these 4 years old. 160 acres of these 3 years old. 150 acres of these planted last year. It is a safe and sound investment which will multiply the original investment over again in five years—and will double and treble and treble again. This is the history of Cache Valley Orchard Land.

APPLE LAND PAID \$1,000 AN ACRE LAST YEAR

Apply for stock now. Shares \$100 each. Terms, 1-4 cash, balance in one or two years.

E. W. ROBINSON, Ex-Speaker of the late House of Representatives, President and Manager.

Eyes Cured

Without the Knife
Grateful Patrons Tell of Almost Miraculous Cures of Cataracts, Granulated Lids, Wild Hairs, Ulcers, Weak, Watery Eyes and All Eye Diseases—Send Your Name and Address with Two-Cent Stamp for Free Trial Bottle.

The cures being made by this magic lotion every day are truly remarkable. I have repeatedly restored to sight persons nearly blind for years. Ulcers, wild hairs, granulated lids disappear almost instantly with the use of this magic remedy. Weak, watery eyes are cleared in a single night and quickly restored to perfect health. It has repeatedly cured where all other remedies and all doctors had failed. It is indeed a magic remedy and I am glad to give this free trial to any sufferer from sore eyes or any eye trouble.

Many have thrown away their glasses after using it a week. Preachers, teachers, doctors, lawyers, engineers, students, dressmakers and all who use their eyes under strain find with this Magic Lotion a safe, sure and quick relief. If you have sore eyes or any eye trouble write me today. I am in earnest in making my offer a free trial bottle of this lotion. I am glad to furnish proof in many well-proven and authentic cases where it has cured cataract after the doctors said that it was a dangerous and expensive operation would save the sight. If you have eye troubles of any kind you will make a serious mistake if you do not send for my great free offer of this Magic Eye Lotion. Address, with full description of your trouble and a two-cent stamp, H. T. Schlegel Co., 344 Home Bank Bldg., Peoria, Ill., and you will receive by return mail, prepaid, a trial bottle of this magic remedy that has restored many almost blind to sight.

KIDDER'S PASTILLES
Standard relief for ASTHMA 20 years. Sold by all Druggists. 25 cents.

Ranging in price from \$1,200 to \$10,000. Only book of its kind ever published in Salt Lake City, and the largest west of Chicago. FOURTH FLOOR DOOLY BLOCK, SALT LAKE CITY.

IF IT HAPPENS IT'S IN THE HERALD.

Electricity, the Modern Motive Power

Ninety per cent of the exhibitors at the Prosperity Fair are driving their factories exclusively with electric power. This interesting fact proves two things:

First—That Utah manufacturers are progressive bunch; and Second—That electricity has no real competitors as a motive power.

Please note that the factories of the remaining 10 per cent of the exhibitors are located where they cannot get our current.

Are you using the modern power? If not, let our representative call and give you prices.
